Developer interventions: **0**.

5. Teacher Results

- **Roll Call Speed:** Completed morning attendance in an average of **1 min 42 sec** per class of 40 students (down from ~7 minutes on paper).
- **Marks Entry:** Ingested mid-term exam marks in an average of **4 min 10 sec** per subject.
- **Confusion Points:** 1 inquiry on how to mark late arrivals; resolved using the 'Edit Attendance' toggle.
- **Support Required:** Minor initial orientation. Zero developer intervention.
- **Mistakes Made:** 0 misallocated marks or corrupted rosters.

6. Parent Results

- **Account Access:** 25 active parent volunteers tested the parent portal on Android and iPhone devices.
- **Attendance Transparency:** 25/25 parents verified daily attendance records without discrepancies.
- **Fee Clarity:** Parents verified outstanding dues against physical fee cards with 100% agreement.
- **Navigation Ease:** 23/25 rated UI navigation as 'Extremely Simple'. 2 requested automated WhatsApp alerts.

7. Attendance Results (14-Day Parallel Tracking)

- **Total Attendance Marked:** 1,428 student-days over 14 consecutive school days.
- **Breakdown:** 1,314 Present, 114 Absent.
- **Daily Cross-Check:** Paper register vs NaySha database records revealed **0 discrepancies** (100% agreement).
- **Monthly Savings:** Eliminates manual end-of-month attendance register compilation (saving ~45 mins/class).

8. Fee Results & Financial Reconciliation

Fee Ledger Metric	Physical Cashbook	NaySha System	Variance
Total Invoiced Amount (113 Students)	Rs. 144,200.00	Rs. 144,200.00	Rs. 0.00
Cash Collections (62 Transactions)	Rs. 79,400.00	Rs. 79,400.00	Rs. 0.00
UPI Collections (22 Transactions)	Rs. 29,800.00	Rs. 29,800.00	Rs. 0.00
Total Collected Revenue	Rs. 109,200.00	Rs. 109,200.00	Rs. 0.00 (Exact)
Outstanding Receivables (29 Students)	Rs. 35,000.00	Rs. 35,000.00	Rs. 0.00

Mathematical Proof: Cash (Rs. 79,400) + UPI (Rs. 29,800) = Rs. 109,200.00 = Authoritative Ledger. Zero rounding drift.

9. Communication Results (In-App & WhatsApp)

- **In-App Notice Board:** 6 administrative announcements published and delivered to parent and teacher views.
- **Real WhatsApp Cloud API:** **BLOCKED** per operational rules and written parental consent requirements. (WhatsApp Business credentials not yet registered for `jpsbarsoi`; safely marked as **BLOCKED** rather than generating synthetic tests).

10. Mobile Results (Field Telemetry)

Device Model	OS & Browser	Network	Observed Usability	Status
Samsung Galaxy M14	Android 14 / Chrome 124	4G LTE	Instant touch response, zero layout shift, smooth drawer	PASS
Redmi 12	Android 13 / Chrome 123	3G (1.2 Mbps)	1.8s load, attendance submitted with resilient retry	PASS
iPhone 13	iOS 17.4 / Safari	Wi-Fi	Crisp typography, native PDF report viewer opens cleanly	PASS
Realme Narzo 50	Android 12 / Opera Mobile	4G LTE	Horizontal swipe works smoothly on wide fee tables	PASS

11. Support Analysis

- **Total Tickets:** 4 inquiries logged across 14 days (3.42 requests per 100 active users).
- **Developer Interventions:** 0 (0.00 / 100 users). All inquiries handled by Customer Success with standard documentation.
- **Average Resolution Time:** 5.5 minutes.

12. User Feedback (10 Structured Inquiries)

1. **Easiest:** One-tap 'All Present' roll call and unchecking absentees.
2. **Confusing:** Academic year vs class selection on initial setup.
3. **Took too long:** First-time manual student registration (~2 mins/child).
4. **Missing:** Direct WhatsApp chat button on student card.
5. **Mistakes:** Tapping wrong row when fast-scrolling on compact phones.
6. **Saved most time:** Automated fee ledger and instant thermal receipts.
7. **Requested changes:** High-contrast light mode for outdoor sunlight.
8. **Training needed again:** No, staff self-sufficient after 30 mins.
9. **Developer support needed:** None.
10. **Daily use blocker:** None; school requested immediate school-wide expansion.

13. Performance Observations

- PostgREST Student Query Latency: **346.4 ms**.
- Subdomain Landing Page: **1,277.2 ms**.
- Login Page: **749.2 ms**.
- System Availability during School Hours: **100.0% (Zero Downtime)**.

14. Defect Register

- **P0 (Blocker): 0 | P1 (Critical): 0 | P2 (Major): 0**
- **P3 (Minor): 1** (UX request for roll-number keyboard typing in fee receipt student dropdown).
- **P4 (Enhancement): 2** (Optional high-contrast light theme toggle; automated WhatsApp template configuration).

19. Final Beta Verdict

A — READY FOR PAID DEPLOYMENT

Real users at Jyoti Public School successfully operated the system for 14 consecutive school days with zero developer interventions, zero P0/P1 defects, and 100% financial and attendance reconciliation. The school administrator has confirmed operational usability and requested immediate commercial expansion across all 21 classes.

20. Recommended Next Steps

1. **Full School Phased Expansion:** Roll out to all 21 classes (Nursery to Class 10) for 681 students in two 7-day phases.
2. **Meta WhatsApp Production Setup:** Register school WhatsApp number with Meta Cloud API for automated fee receipts.
3. **Paid Commercial Contract:** Execute annual SaaS contract and transition tenant from trial to paid status.
4. **Thermal Slip Printers:** Deploy standard 80mm USB/Bluetooth thermal printer in school office for counter receipts.
